

## / VINEYARD POOL-SIDE SWIM UNDER CANTILEVER

*The vineyard - fiberflex "POOL SIDE, SWIM-under" cantilever inspired by the wind-swept ocean and desert landscapes of the Baja Peninsula.* The shorter mast allows for deployment directly over pools with in-ground mounts for added security and the parasol features an auto lift system on the back side of the cantilever allowing for easy opening from poolside. TUUCI's state-of-the-art Aluma-TEAK hardwood finish in Natural, Weathered and Java achieves the natural look of hardwood with the durability of aluminum construction.
